### 2. Late tenders

Tenders received after the Closing Date will not be considered, unless there are in SCI's sole discretion exceptional circumstances which have caused the delay.

### 3. Correspondence

All communications from Potential suppliers to SCI relating to the tender must be in writing and addressed to the person identified in this Invitation to Tender. Any request for information should be received at least 5 days before the Closing Date, as defined in the Invitation to Tender. Where appropriate responses to questions submitted by any Potential supplier will be circulated by SCI to all Potential suppliers to ensure fairness in the process.

### 4. Acceptance of tenders

SCI may, unless the Potential supplier expressly stipulates to the contrary in the tender, accept whatever part of a tender that SCI so wishes. SCI is under no obligation to accept the lowest or any tender.

### 5. Alternative offer

If the Potential supplier wishes to propose modifications to the tender (which may provide a better way to achieve SCI's Specification) these may, at SCI's discretion, be considered as an Alternative Offer. The Potential supplier must make any Alternative Offer in a separate letter to accompany the Tender. SCI is under no obligation to accept Alternative Offers.

### 6. Prices

- not disclose the Confidential Information to third parties without SCI's prior written consent;
- not employ their knowledge of the Confidential Information in any way that would be detrimental or harmful to SCI;
- use all reasonable efforts to prevent the disclosure of the Confidential Information to third parties;
- notify SCI immediately of any possible breach of the provisions of this Condition 9 and acknowledge that damages may not be an adequate remedy for such a breach.

**10. Information and Record Keeping**

SCI shall consider any reasonable request from any unsuccessful Potential supplier for feedback on its bid and, where it is appropriate and proportionate to do so, provide the unsuccessful Potential supplier with reasons why the bid was rejected. ## APPENDIX 2 – SAVE THE CHILDRENS SAFEGUARDING POLICY

### Our values and principles

Child abuse is when anyone under 18 years of age is being harmed or isn't being looked after properly. The abuse can be physical, sexual, emotional or neglect. The abuse and exploitation of children happens in all countries and societies across the world. Child abuse is never acceptable.

It is expected that all who work with Save the Children are committed to safeguard children whom they are in contact with.

### What we do

Save the Children is committed to safeguard children through the following means:

**Awareness:** Ensuring that all staff and those who work with Save the Children are aware of the problem of child abuse and the risks to children.

**Prevention:** Ensuring, through awareness and good practice, that staff and those who work with Save the Children minimise the risks to children.

**Reporting:** Ensuring that you are clear on what steps to take where concerns arise regarding the safety of children.

**Responding:** Ensuring that action is taken to support and protect children where concerns arise regarding possible abuse.

To help you clarify our safeguarding approach, we list here examples of the behaviour by a representative of Save the Children which are prohibited. These include but are not limited to:

1. Hitting or otherwise physically assaulting or physically abusing children.
2. Engaging in sexual activity or having a sexual relationship with anyone under the age of 18 years regardless of the age of majority/consent or custom locally. Mistaken belief in the age of a child is not a defence.
3. Developing relationships with children which could in any way be deemed exploitative or abusive.
4. Acting in ways that may be abusive in any way or may place a child at risk of abuse.
5. Using language, making suggestions or offering advice which is inappropriate, offensive or abusive.
6. Behaving physically in a manner which is inappropriate or sexually provocative.
7. Sleeping in the same bed or same room as a child, or having a child/children with whom one is working to stay overnight at a home unsupervised.
8. Doing things for children of a personal nature that they can do themselves.
9. Condoning, or participating in, behaviour of children which is illegal, unsafe or abusive.

10. Acting in ways intended to shame, humiliate, belittle or degrade children, or otherwise perpetrate any form of emotional abuse.
11. Discriminating against, showing unfair differential treatment or favour to particular children to the exclusion of others.
12. Spending excessive time alone with children away from others.
13. Placing oneself in a position where one is made vulnerable to allegations of misconduct.

In order that the above standards of reporting and responding are met, **this is what is expected of you:**

If you are worried that a child or young person is being abused or neglected, (such as in points 1, 2, 3, 4, 6, 8, 9 and 10 above for example) or you are concerned about the inappropriate behaviour of an employee, or someone working with Save the Children, towards a child or young person, then you are obliged to:

- act quickly and get help
- support and respect the child
- where possible, ensure that the child is safe
- contact your Save the Children manager with your concerns immediately (or their senior manager if necessary)

## APPENDIX 3 - SAVE THE CHILDRENS ANTI BRIBERY & CORRUPTION POLICY

### Our values and principles

Save the Children does not allow any partner, supplier, sub-contractor, agent or any individual engaged by Save the Children to behave in a corrupt manner while carrying out Save the Children's work.

### What we do

Save the Children is committed to preventing acts of bribery and corruption through the following means:

**Awareness:** Ensuring that all staff and those who work with Save the Children are aware of the problem of bribery and corruption.

**Prevention:** Ensuring, through awareness and good practice, that staff and those who work with Save the Children minimise the risks of bribery and corruption.

**Reporting:** Ensuring that all staff and those who work with Save the Children are clear on what steps to take where concerns arise regarding allegations of bribery and corruption.

**Responding:** Ensuring that action is taken to support and protect assets and identifying cases of bribery and corruption.

To help you identify cases of bribery and corruption, behaviour which amounts to corruption includes but is not limited to:

- a) Paying or Offering a Bribe – where a person improperly offers, gives or promises any form of material benefit or other advantage, whether in cash or in kind, to another in order to influence their conduct in any way.
- b) Receiving or Requesting a Bribe – where a person improperly requests, agrees to receive or accepts any form of material benefit or other advantage, whether in cash or in kind, which influences or is designed to influence the individual's conduct in any way.
- c) Receiving or Paying a so-called 'Grease' or 'Facilitation' payment – where a person improperly receives something of value from another party for performing a service or other action that they were required by their employment to do anyway.
- d) Nepotism or Patronage – where a person improperly uses their employment to favour or materially benefit friends, relatives or other associates in some way. For example, through the awarding of contracts or other material advantages.
- e) Embezzlement - where a person improperly uses funds, property, resources or other assets that belong to an organisation or individual.
- f) Receiving a so-called 'Kickback' Payment – where a person improperly receives a share of funds, a commission, material benefit or other advantage from a supplier as a result of their involvement in a corrupt bid or tender process.
- g) Collusion – where a person improperly colludes with others to circumvent, undermine or otherwise ignore rules, policies or guidance.
- h) Abuse of a Position of Trust – where a person improperly uses their position within their organisation to materially benefit themselves or any other party.

In order that the above standards of reporting and responding are met, **this is what is expected of you:**

You have a duty to protect the assets of Save the Children from any form of corruption. Furthermore, you must immediately report any suspicion of bribery or corruption to the Save the Children senior management team or Country Director and not to anyone else. Failure to report will be treated as serious and may result in termination of any agreement with Save the Children.

You are obliged to:-

- act quickly and get help
- encourage your own staff to report on bribery and corruption
- contact the Save the Children senior management team or Country Director with your concerns immediately (or their senior manager if necessary)
- keep any information confidential to you and the manager.

Attempted corruption is as serious as the actual acts and will be treated in the same way under this policy.

If you want to know more about the Anti-Bribery and Corruption Policy then please contact your Save the Children representative.

## APPENDIX 4 – SAVE THE CHILDRENS HUMAN TRAFFICKING & MODERN SLAVERY POLICY

### 1. Our values and principles

*Save the Children does not allow any partner, supplier, sub-contractor, agent or any individual engaged by Save the Children to engage in human trafficking or modern slavery.*

*This policy applies to all persons working for us or on our behalf in any capacity, including employees at all levels, directors, officers, agency workers, seconded workers, volunteers, interns, agents, contractors, external consultants, third-party representatives and business partners.*

### 2. What is human trafficking and modern slavery?

The Modern Slavery Act (MSA) 2015 covers four activities:

<b>Slavery</b>	Exercising powers of ownership over a person
<b>Servitude</b>	The obligation to provide services is imposed by the use of coercion
<b>Forced or compulsory labour</b>	Work or services are exacted from a person under the menace of any penalty and for which the person has not offered themselves voluntarily
<b>Human trafficking</b>	Arranging or facilitating the travel of another person with a view to their exploitation

Modern slavery, including human trafficking, is a crime and a violation of fundamental human rights. It takes various forms, such as slavery, servitude, forced and compulsory labour and human trafficking, all of which have in common the deprivation of a person's liberty by another in order to exploit them for personal or commercial gain. We have a zero-tolerance approach to modern slavery and we are committed to acting ethically and with integrity in all our business dealings and relationships and to implementing and enforcing effective systems and controls to ensure modern slavery is not taking place anywhere in our own business or in any of our supply chains.

We are also committed to ensuring there is transparency in our own business and in our approach to tackling modern slavery throughout our supply chains, consistent with our national and international disclosure obligations, and shall comply with all applicable laws, statutes, regulations and codes from time to time in force, including:

- UK Modern Slavery Act 2015 (see above);
- US Trafficking Victims Protection Act 2000;
- USAID ADS 303 Mandatory Standard Provision, Trafficking in Persons (July 2015); and
- International Labour Standards on Child Labour and Forced Labour.

### 3. Our approach to preventing human trafficking and modern slavery

Save the Children is committed to preventing human trafficking and modern slavery, including through the following means:

**Awareness:** Ensuring that all staff and those who work with Save the Children are aware of the problem of human trafficking and modern slavery.

**Prevention:** Ensuring, through awareness and good practice, that staff and those who work with Save the Children minimise the risks of human trafficking and modern slavery.

**Reporting:** Ensuring that all staff and those who work with Save the Children are clear on what steps to take where concerns arise regarding allegations of human trafficking and modern slavery.

**Responding:** Ensuring that action is taken to identify and address cases of human trafficking and modern slavery.

To help you identify cases of human trafficking and modern slavery, the following are examples of prohibited categories of behaviour:

- a. **'Chattel slavery'**, in which one person owns another person.
- b. **'Bonded labour' or 'debt bondage'**, which is when a person's work is the security for a debt – effectively the person is on 'a long lease' which they cannot bring to an end, and so cannot leave their 'employer'. Often the conditions of employment can be such that the labourer can't pay off their debt and is stuck for life, because of low wages, deductions for food and lodging, and high interest rates.
- c. **'Serfdom'**, which is when a person has to live and work for another on the other's land.
- d. **Other forms of forced labour**, such as when passports are confiscated (sometimes by unscrupulous recruitment agencies) from migrant workers to keep them in bondage, or when a worker is 'kept in captivity' as a domestic servant. If a supplier or contractor appears to impose excessively harsh working conditions, or excessively poor wages, then you should always be alive to the possibility that a form of forced labour is occurring, and take care with your due diligence.
- e. 'Child Slavery', which is the transfer of a young person (under 18) to another person so that the young person can be exploited. Child labour may, in fact, be a form of child slavery, and should not be tolerated. See the Save the Children Child Safeguarding Policy for further details.
- f. 'Marital and sexual slavery', including forced marriage, the purchase of women for marriage, forced prostitution, or other sexual exploitation of individuals through the use or threat of force or other penalty.

#### **4. The Commitment we expect from commercial partners**

We expect the same high standards from all of our contractors, suppliers and other business partners, and as part of our contracting processes, we may include specific prohibitions against the use of forced, compulsory or trafficked labour, or anyone held in slavery or servitude, whether adults or children, and we expect that our suppliers will hold their own suppliers to the same high standards.

*Please contact your Save the Children representative if you have further questions.*

## APPENDIX 5 – CODE OF CONDUCT FOR IAPG AGENCIES & SUPPLIERS

Suppliers and manufacturers to Non Governmental Organisations (NGO's) should be aware of the Code of Conduct initiatives that the Inter-Agency Procurement Group (IAPG) support. This information is to advise you, our suppliers, of the Corporate Social Responsibility (CSR) element in our supplier relationships.

- Goods and services purchased are produced and developed under conditions that do not involve the abuse or exploitation of any persons.
- Goods produced and delivered by organisations subscribe to no exploitation of children
- Goods produced and manufactured have the least impact on the environment

### **Code of Conduct for Suppliers:**

Goods and services are produced and delivered under conditions where:

- Employment is freely chosen
- The rights of staff to freedom of association and collective bargaining are respected.
- Living wages are paid
- There is no exploitation of children
- Working conditions are safe and hygienic
- Working hours are not excessive
- No discrimination is practiced
- Regular employment is provided
- No harsh or inhumane treatment of staff is allowed.

### **Environmental Standards:**

Suppliers should as a minimum comply with all statutory and other legal requirements relating to environmental impacts of their business. Areas to be considered are:

- Waste Management
- Packaging and Paper
- Conservation
- Energy Use
- Sustainability

### **Business Behaviour:**

IAPG members will seek alternative sources where the conduct of suppliers demonstrably violates anyone's basic human rights, and there is no willingness to address the situation within a reasonable timeframe.

IAPG members will seek alternative sources where companies in the supply chain are involved in the manufacture of arms or the sale of arms to governments which systematically violate the human rights of their citizens.

### **Qualifications to the statement**

Where speed of deployment is essential in saving lives, IAPG members will purchase necessary goods and services from the most appropriate available source.

**Disclaimer**

This Code of Conduct does not supersede IAPG Members' individual Codes of Conduct. Suppliers are recommended to check the Agencies' own websites.
