Practical Action Partner

Due Diligence Questionnaire

Practical Action is committed to upholding the highest possible standards and ethics when delivering our work. This includes protecting staff members and the people living in the communities where we work from exploitation and abuse, protecting ourselves and our donors from financial crime, and ensuring compliance with all donor regulations and local / national laws. We expect the organisations and individuals we work with to uphold the same values and commitments.

In order to work with Practical Action, an organisation must demonstrate that it has the technical capacity, experience, and ability to perform the assigned work, as well as having sufficient processes and procedures in place to ensure it can deliver the work according to the regulations imposed by both Practical Action and the Source Donor.

As part of Practical Action's due diligence assessment, we need to ensure that your organisation:

- is properly registered with the relevant authorities in your country of operation, and is compliant with national tax requirements;
- has suitable control mechanisms and operational protocols in place to deliver the project activities in line with donor regulations;
- is able to meet Duty of Care obligations to staff, consultants, and people living in the areas where we will work;
- is financially robust and has the necessary policies in place to prevent fraud, financial crime, and terrorist financing.

The due diligence assessment is a self-declaration made by you, the potential partner, to provide information regarding your current organisational policies, procedures, registrations, and resources.

It is important that the pre award assessment is completed accurately and truthfully - your organisation will not be automatically disqualified from working with Practical Action if you do not have everything in place. Instead, it allows us to identify areas where we may have to share resources in order to comply with the requirements of major institutional donors - while also providing Practical Action with the assurance that your organisation is compliant with all applicable laws, rules, and regulations, and acts in accordance with the highest standards of ethics.

In the event that Practical Action issues a subaward to your organisation, this declaration should be completed and resubmitted annually ahead of further payments.

When completed, this assessment should be returned to the Practical Action contact point with the relevant supporting documentation. **Please note, failure to complete the assessment will prevent the formation of any bidding agreement and/or may delay the payment of a subaward.**
