Contains Triclosone Sodium - 53% NEDCC per tablet

**Warning** Causes serious eye irritation • May cause respiratory irritation • Very toxic to aquatic life with long lasting effects • Contact with acids liberates toxic gas • **Warning!** Do not use together with other products. May release dangerous gases (chlorine) • If medical advice is needed, have product container or label at hand. Keep out of reach of children. Read label before use • Use only outdoors or in a well-ventilated area • Avoid release to the environment. **IF IN EYES:** Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. • If eye irritation persists: Get medical advice/attention • Store in a dry place • Store locked up • Dispose of contents/container in accordance with local regulations. **Caution:** Solution may bleach fabric. **Storage:** Do not store above 30 °C

1.7g NEDCC Per Tablet

Fast Dissolving Chlorine Tablets for Professional Water Treatment

# Water Purification Tablets

MAKES WATER SAFE TO DRINK - FAST

For water storage tanks & pipeline disinfection

### Instructions

**Emergency Water Disinfection:** Dissolve 1 tablet per 200 litres of water to give 50ppm available chlorine. Leave for 30 minutes before drinking. **Never** always agitate the solution to ensure even distribution of the chlorine.

**Water Tank Treatment:** Fill the tank with fresh water and dose with Oasis tablets to give a 50ppm available chlorine level and leave for 5 minutes before drinking. Then thoroughly clean the tank using a Bleach D57 solution of 200 ppm available chlorine and ensure the solution is fully stirred off completely. Finally, fill the tank with fresh water and add Oasis tablets to give a 50 ppm available chlorine solution and **leave overnight.** Check for a residual chlorine level of 50 ppm before neutralising the solution with sodium thiosulfate and drinking. The tank is now ready for use.

**New pipe installations:** Dose the pipework to 50ppm for 30 minutes, check for a chlorine residual then drain off.
